Bug Name: Invalid age and salary input in Registration Form (<https://demoqa.com/webtables>)

Bug ID: #002

Area Path: Go to the website > Click on Elements > Web Tables > Add

Severity: High

Priority: High

Reported On: 2024-03-17

Reason: Defect

Status: New

Environment:

- Browser: Chrome

Description:

- The Age and Salary fields in the registration form accept alphabetic characters instead of only numeric characters

Steps To Reproduce:

1. Go to the registration form
2. Enter alphabetic characters (e.g., "ds") in the Age field.
3. Enter alphabetic characters (e.g., "ddsfd") in the Salary field.
4. Observe that the form accepts the alphabetic characters.

Expected Result:

- The Age and Salary fields should only accept numeric characters (0-9).

Bug Name: Missing tooltip message on web table

Bug ID: #004

Area Path: Go to the website > Click on Elements > Web Tables > Add

Severity: Medium

Priority: Low

Reported On: 2024-03-17

Reason: Defect

Status: New

Environment:

- Browser: Chrome

Description:

- The tooltip message for a web table cell is not displaying.

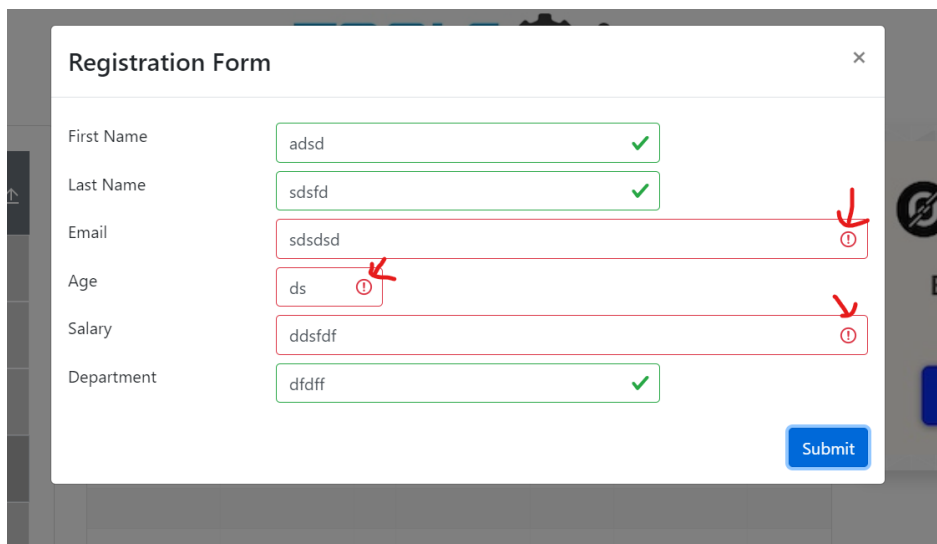

Steps To Reproduce:

1. Access the web page containing the web table.
2. Hover your mouse over a cell in the web table where a tooltip message is expected to appear.
3. Observe that no tooltip message is displayed.

Expected Result:

- A tooltip message should be displayed when hovering the mouse over a web table cell, providing additional information about the cell content.

The screenshot shows a 'Registration Form' window with the following fields and values:

Field	Value	Validation Status
First Name	adsd	Valid (green checkmark)
Last Name	sdsfd	Valid (green checkmark)
Email	sdsdsd	Invalid (red border, red arrow pointing to error icon)
Age	ds	Invalid (red border, red arrow pointing to error icon)
Salary	ddsdfd	Invalid (red border, red arrow pointing to error icon)
Department	dfdff	Valid (green checkmark)

A blue 'Submit' button is located at the bottom right of the form.

Bug Name: Invalid Department field input in Registration Form

Bug ID: #005

Area Path: Go to the website > Click on Elements > Web Tables > Add > Department

Severity: High

Priority: High

Reported On: 2024-03-17

Reason: Defect

Status: New

Environment:

- Browser: Chrome

Description:

- The Department field in the registration form accepts numeric characters instead of only allowing alphabetic characters or being restricted to a predefined list of departments

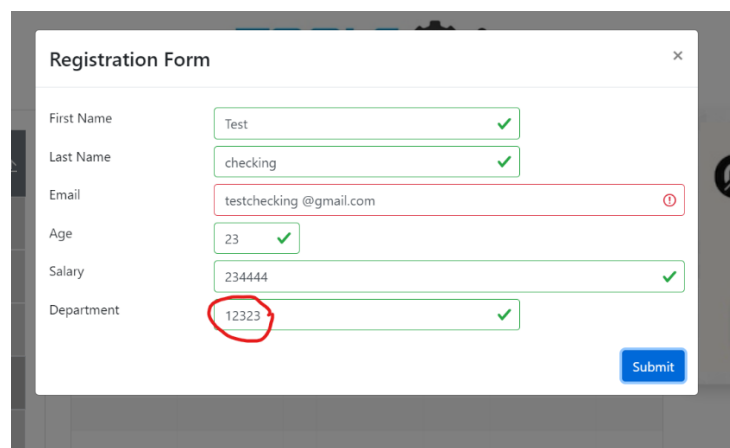

Steps To Reproduce:

1. Access the registration form.
2. Enter only alphabetic characters in the Department field.
3. Observe that the form accepts the alphabetic characters.

Expected Result:

- The Department field should only accept:
 1. Alphabetic characters
 2. If a predefined list of departments exists, the user should only be able to select from that list.

Attachments:

The screenshot shows a 'Registration Form' with the following fields and values:

Field	Value	Validation
First Name	Test	✓
Last Name	checking	✓
Email	testchecking@gmail.com	✗
Age	23	✓
Salary	234444	✓
Department	12323	✓

The 'Department' field is circled in red, highlighting the bug where numeric characters are accepted. A 'Submit' button is located at the bottom right of the form.

Bug Name: Clicking link triggers a console error

Bug ID: #006

Area Path: > Go to the website > Click on Elements > Broken Links - Images > Click Here for Valid Link

Severity: Medium

Priority: Medium

Reported On: 2024-03-17

Reason: Defect

Status: New

Environment:

- Browser: Chrome

Description:

- Clicking on a specific link triggers an error message in the browser console.

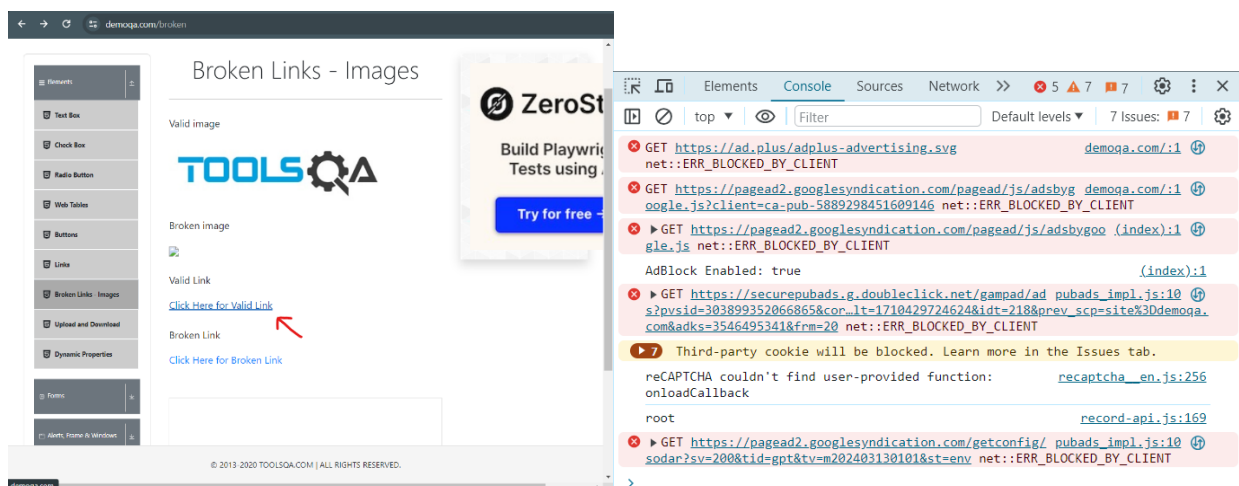

Steps To Reproduce:

1. Access the web page <https://demoqa.com/broken>
2. Click on the “[Click Here for Valid Link](#)”
3. Open the browser console
4. Observe the presence of an error message in the console.

Expected Result:

- Clicking the link should navigate the user to the intended destination webpage without any errors in the browser console.

Bug Name: "The More" tab not clickable in Demo QA Website

Bug ID: #007

Area Path: Go to the website > Click on Widgets > Tabs

Severity: Medium

Priority: Low

Reported On: 2024-03-17

Reason: Defect

Status: New)

Environment:

- Browser: Chrome

Description:

- The "More" tab on the Demo QA website is not clickable. This prevents users from accessing potentially additional information.

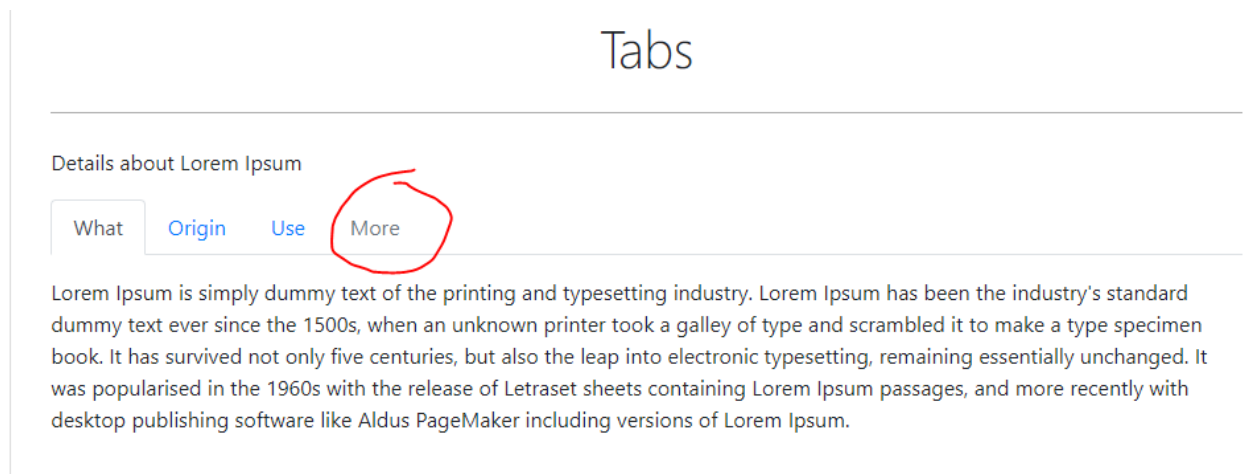

Steps To Reproduce:

1. Go to the following URL: <https://demoqa.com/tabs>
2. Click on the "Widgets" menu item.
3. Observe that the "More" tab is unresponsive when clicked.

Expected Result:

- Clicking on the "More" tab should display additional information or navigate the user to a new webpage containing more details.

Bug Name: Registration form allows invalid characters for First and Last Name

Bug ID: #008

Area Path: Go to the website > Click on Book Store Applications > Login > New User

Severity: High

Priority: High

Reported On: 2024-03-17

Reason: Defect

Status: New

Environment:

- Browser: Chrome

Description:

- The First Name and Last Name fields in the registration form accept numeric and special characters instead of only allowing alphabetic characters. Invalid data leads to data integrity issues within the system.

Steps To Reproduce:

1. Access the registration form.
2. Enter special characters (e.g., "!@#\$%^&*") in the First Name field.
3. Enter numeric characters (e.g., "123456") in the Last Name field.
4. Observe that the form accepts special characters and numeric characters.

Expected Result:

- The First Name and Last Name fields should only accept alphabetic characters.

Bug Name: Registration form allows invalid characters for First and Last Name with no warning

Bug ID: #009

Area Path: > Go to the website > Click on Book Store Applications > Login > New User

Severity: Medium

Priority: Medium

Reported On: 2024-03-17

Reason: Defect

Status: New

Environment:

- Browser: Chrome

Description:

- The registration form's First Name and Last Name fields accept special and numeric characters instead of only allowing alphabetic characters. Additionally, no warning messages are displayed when the user enters invalid data. This allows users to enter invalid data without being aware of the issue, potentially leading to inaccurate information being stored in the system.

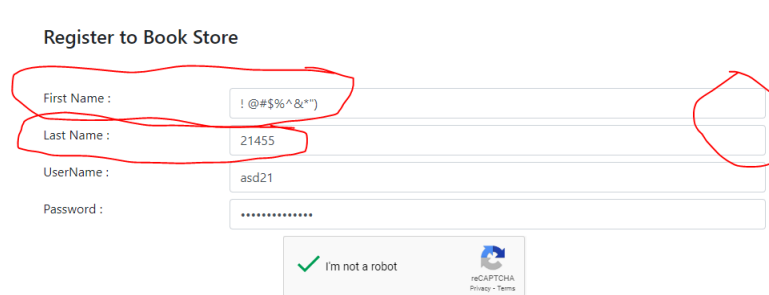

Steps To Reproduce:

1. Access the registration form.
2. Enter special characters in the First Name field.
3. Enter numeric characters in the Last Name field.
4. Observe that the form accepts the special characters and numeric characters, and no warning message is displayed.

Expected Result:

- The First Name and Last Name fields should only accept alphabetic characters.
- A warning message should be displayed if the user enters invalid characters, informing them about the allowed characters for the fields.

Attachments:

The screenshot shows a registration form titled "Register to Book Store". It contains four input fields: "First Name :", "Last Name :", "UserName :", and "Password :". The "First Name" field contains the text "! @\$%^&*'" and the "Last Name" field contains "21455". Both of these fields are circled in red. Below the input fields is a reCAPTCHA widget with a green checkmark and the text "I'm not a robot". At the bottom right of the reCAPTCHA widget are links for "Privacy" and "Terms".
